

**Objectives:** *The objective of self-guided learning activities is to guide you to investigate some topics essential for 21<sup>st</sup> century university students while preparing you for the self-learning culture which is an integral part of SLIIT learning environment. Also, this assignment requires you to manage your own time effectively and achieve learning targets.*

**Instructions and Guidelines:**

- The table given below consists of a list of **activities**.
- You may explore the topic online using google search or other means of your choice.
- You have to study the free content available at the provided links.
- You must complete all the activities.
- You have to use the timetable slots named as '**CTCS self-guided activities sessions**' for this purpose in every week.

Activity Index	Self-learning Topics	Recommended free online resources (You may refer any suitable online resources)	Activity Output
Activity1	Identifying your Self-concept	<a href="https://courses.lumenlearning.com/buswriting/chapter/self-concept-and-dimensions-of-self/">https://courses.lumenlearning.com/buswriting/chapter/self-concept-and-dimensions-of-self/</a>	Your own self-concept (max 2 pages)
Activity2	Creating your Resume	(You may refer any suitable online resources and give references)	Your resume (max 2 pages)
Activity3	Learning how to be safe on the internet	(You may refer any suitable online resources and give references)	1page Reflective summary
Activity4	Academic information seeking	(You may refer any suitable online resources and give references)	1page Reflective summary
Activity5	Academic writing	(You may refer any suitable online resources and give references)	1page Reflective summary
Activity6	Developing a search strategy	(You may refer any suitable online resources and give references)	1page Reflective summary
Activity7	Data visualization techniques	(You may refer any suitable online resources and give references)	1page Reflective summary
Activity 8	How emerging technology impacts day to day life	(You may refer any suitable online resources and give references)	1page Reflective summary
Activity 9	Exploring Emerging Technologies for Lifelong Learning and Success.	<a href="https://www.coursera.org/learn/emerging-technologies-lifelong-learning">https://www.coursera.org/learn/emerging-technologies-lifelong-learning</a>	1page Reflective summary

**Submission:**

- Submission link will be available through the module courseweb page.
- Submit your **Report** to the submission link as a **PDF** file.
- Your file must have your studentID as file name:  
 E.g. *IT21123456\_Activity Report*

### **Activity1 - Self-concept**

In this topic, you are required to understand what 'self-concept' is and reflect on your own self-concept.
